**RE: INTERNSHIP PLACEMENT OFFER**

Congratulations **Ms. Promise Nuwasasira!** Following your application, Yunga Technologies is pleased to offer you a software development/Entrepreneurship internship placement. Your internship starts from 1<sup>st</sup> Nov, 2021 to 1<sup>st</sup> Feb, 2022.

While at Yunga Technologies, It will be a must for you to participate in both finding solutions to problems using technology with our mainstream product as well as implementing them in a very innovative way using code with your own algorithms. During the training, the company might decide to engage with one of our IoT Products that are already deployed to customers' homes for you to find ways of improving it's real time communication under the electronics/hardware department or encourage you to develop a completely different product by looking at most pressing community problems. Also at Yunga, remote working is a key since some of the partners are out of the country and you will solve their challenges remotely through code, make sure remote meeting softwares such as zoom, google meet, Go2meeting, Skype etc are at your core.

In addition to the above, company rules and procedures apply. Yunga technologies reserves the rights to terminate the offer should you violate the company rules which you will be taken through by the human resource manager on the first day of reporting.

At Yunga Technologies, we have a mission of creating safe communities across sub saharan Africa through current technologies. We encourage you to visit [www.yunga-ug.com](http://www.yunga-ug.com) to get comfortable with why we do what we do.

Once again, Congrats and we wish a safe stay that is full of learning during your internship periode with us.

Yours Faithfully,

**Anatoli Kirigwajjo**  
Co-founder & CEO
