RE: APPLICATION FOR THE POSITION OF SOFTWARE DEVELOPER INTERN

Dear Sir,

I am currently an IT student Pursuing a diploma at AkiraChix compass. As part of the course, all students are required to complete a 3-month internship placement. I am writing to you seeking an internship opportunity to accelerate my career in software development.

As an entry-level software developer, I am able to translate designs and wireframes into high-quality code that is reusable and maintainable. While at college I have strategically focused my coursework in the following areas: Javascript, Html, and CSS, Python, UI/UX Design, Using the knowledge above, I designed and developed an E-commerce website using HTML, CSS, and Javascript, a bank account using python OOP, and a school registration management system using Django others are found on my [GitHub](#). My attached resume gives evidence of my strong performance in my coursework

I have visited your website and interacted with individuals from yo-waste, I understand your company is one that has incorporated software tools, an area I am personally interested in its operations. I believe Yo-waste to be the best place to learn and grow my career.

Looking forward to hearing from you. Thank you for your consideration.

Best Regards,

PROMISE NUWASASIRA
