Dear Sir/Madam,

RE: APPLICATION FOR A SOFTWARE DEVELOPMENT INTERNSHIP

I am an entry-level software developer. I am writing to you seeking an internship opportunity to accelerate my career in tech.

I have visited your website and interacted with individuals from SunCulture, I am impressed by your services like developing a novel and unique product that simplifies farming and increases crop yields, and being part of the team would help me learn and grow my career.

As an entry-level software developer, I have created a school management system that stores student's data using Django. My attached resume gives evidence of my strong performance in my coursework.

Looking forward to hearing from you. Thank you for your consideration.

Best Regards,

Promise Nuwasasira
