YOLO

Dear Hiring Manager,

I'm writing to you regarding the UI/UX Designer role that opened up recently. I came across the job description on social media and was delighted to find that my academic accomplishments meet all of the necessary requirements. I am seeking a challenging but rewarding internship, which is why I was drawn to this exciting opportunity.

As a junior UI/UX Designer and Software developer, I am able to translate designs and wireframes into high-quality code that is reusable and maintainable. While in the college of Computer Science I have strategically focused my coursework in the following areas: Vanilla Javascript, Html, and CSS, Kotlin, basic knowledge in python, UI/UX Design

Using my knowledge of the above, I designed an E-commerce website and developed it using HTML, CSS, and Javascript, a contact app using Kotlin Android, and a bank account using python OOP. I would be delighted to have an opportunity to work with you. Please accept the enclosed resume and feel free to contact me at your earliest convenience. I appreciate your time and consideration.

Sincerely,

Promise Nuwasasira
